

Enterprise-level services at affordable prices

At savvisdirect, we offer a simple and affordable path to enterprise-level business applications, development platforms, and cloud server and storage infrastructure. We're more than just cloud. We're the bedrock of your business.

Save time and money with cloud-based infrastructure

With our cloud infrastructure, you can be more productive without having to purchase new computer hardware or software.

CloudServer

- Choose from five optimized server configurations or create your own
- Works with Windows and Linux OS
- Monthly billing provides cost savings
- Includes network resources

CloudStorage

- Get the space you need and pay only for what you use
- Connect to object-based storage that's on demand and geographically load-balanced between data centers
- Access your data from any broadband Internet connection

Centralized Management Console

- One easy-to-understand administrative dashboard
- Control your entire cloud IT environment
- Add or remove the services instantly
- Get the information and support you need

Secure and Compliant

Your data is secure with partitioning, authentication, encryption and firewalls.

Ready When You Are

Supported by a 99.95% infrastructure uptime SLA and 99.98% network availability SLA.

Seamless Integration

Fits right in with your existing infrastructure – no need for extra software or hardware.

Easily Scalable

Get as much or as little as you want – upgrade or downgrade at any time.

For questions or more details about the right solutions for your business, contact your dedicated Small Business Representative.

Free up your cash flow and IT resources with cloud-based applications

By adopting Software as a Service (SaaS) solutions, your programs live in our secure cloud and not on your network or in your computers. That way you don't have to worry about purchasing, upgrading or maintaining your software at any time.

Email Archiving & eDiscovery

Store and recover historical emails quickly and easily, minimizing your business risk and meeting all compliance requirements.

- **MessageSolution™ Email Archiving**

Stay compliant, automatically – Archive all inbound, outbound and internal emails with this automated application.

Store less and find more – Optimize storage structure for easy backup and restoration, improving server performance.

Streamline eDiscovery for easy searching in the future – Simplify tagging, notation and email analysis.

No hardware or software to install or manage.

Accessible even when you're on the go.

Best-in-class security with live technical support.

OR

- **McAfee® Email Archiving**

Stay compliant with reliable email archiving.

Retain data for one or multiple years.

FAST FORWARD ONBOARDINGSM SERVICE

The quickest way to the cloud is through our free assistance, where we introduce you to your services and Management Console so you can hit the ground running with the activation of your services in no time.

Onboarding: Get immediate assistance with initial system setup.

Ongoing: Receive real-time help for technical questions, product and application training, and incremental setup.

For questions or more details about the right solutions for your business, contact your dedicated Small Business Representative.
