

We install it. We manage it. We worry about it. So you don't have to.

What is Managed Office?

Managed Office is a game-changing small business IT and communications solution.

We manage your data networks, your new IP phone system and your business applications. That means we not only provide the equipment, we also install, manage and take care of all the essentials, so you can focus on what you love doing most—running your business.

Can something this good get any better? Yes. Managed Office is available at a per seat (user) monthly price. And a predictable price can do wonders for your budget.

What can Managed Office do for your business?

Predictable Costs

With scalable per seat pricing available, you'll be able to predict costs easily. We provide, maintain and update the CenturyLink-provided equipment and software required, so you don't have to.

Flexible Control

Changing features is easy with an intuitive online portal. Plus, you can seamlessly add employees to keep up with your growing business. Even better, you can eliminate the hassle of dealing with multiple providers.

Personalized Installation Personal Support

To start, professional installation and personalized training for all your employees is included. Then, you get a dedicated, full-service, White Glove technical support team with 24/7/365 availability.

Microsoft® Office 365 with up to 1TB of Storage

With Microsoft® Office 365, all your familiar Office tools are accessible from virtually anywhere, at anytime, and constantly kept up to date over the reliable CenturyLink® network. Plus, with 1TB of file storage and sharing, you'll be able to get more done.
