

CenturyLink's connection is more powerful with Microsoft® Office 365. And so is your business.

With Office 365, your business will be able to securely access the applications you're familiar with, in the cloud, from virtually anywhere, anytime. Which means you'll be able to work and share files with clients and employees in real time. You'll also eliminate the hassle of software licensing for each employee and ensure you always have access to the most up-to-date applications.

Work from anywhere on all your devices

Improved mobility

- Work and collaborate from virtually anywhere with the latest versions of your familiar tools.
- Office 365 is touch-friendly and optimized to work on mobile devices, allowing you to work seamlessly with all the Office 365 cloud services on virtually any device.
- And, when you sign into Office, your latest documents and settings follow you to any device.

1TB of file storage and sharing per person

With Microsoft® OneDrive for Business, you can save your work to the cloud and securely access and share the latest versions of your document.

Unlimited online meetings

Work with coworkers or present to clients with unlimited online meetings and HD video conferences for up to 250 attendees, all from a single click from Outlook.

Professional email and shared calendars with world-class security

Access all your corporate and personal email, contacts and shared calendars in one unified inbox with anti-spam and anti-virus protection.

Instant Messaging

Find, locate and instantly communicate with colleagues wherever they are.

Setup and migration services

Setup and migration services available based on your needs, from guided activation, through end-to-end, do-it-for-me options*

World class support

24/7 support from a real person via email or phone.

Why CenturyLink?

- We've partnered with Microsoft to make it easy to get the business tools you need from one provider by including Office 365 with our most popular solutions.
- Unlike some providers, CenturyLink owns and operates its own network—helping everything run better over our high-performance, reliable connection to the cloud.
- Our support team will assist you through the migration and activation process to help ensure you're up and running quickly, with 24/7 technical support available when you need it.

For questions or more details about the right solutions for your business, contact your dedicated Small Business Representative.
