

"Maybe it's time to improve  
our online visibility."

# Smart, Simple, Budget-Friendly Solutions for a Competitive Market

Now you can have the same smart business solutions as your competitors. CenturyLink Cloud Solutions tackle business headaches by improving your network security, online presence and IT support — without the extra cost.

## Protect - Backup and Security

**Try it FREE for 30 days**

**Starts as low as \$7/user/month after trial offer**

Protect your business and customer data from viruses, threats and loss with automatic data backup and McAfee's proactive web screening and email archiving.

**Try Protect, Grow  
& Support FREE  
for the First Month**

## Why CenturyLink Cloud Solutions?

- Forget the hassles of hardware, software and license updates — CenturyLink manages everything for you!
- Work from virtually anywhere by accessing your services online, at any time from any device.
- Make changes easily and cost-effectively, with the ability to get new staff up and running quickly.

## Grow - Website Improvement and Security

**Try it FREE for 30 days**

**Starts as low as \$10/month/URL after trial offer**

From website development to site improvement, we offer your customers an advanced online user experience. Plus, our 30-day free trial offer includes SiteLock protection, mobile optimization, and an online shopping cart to help improve your website.

## Support - Remote IT Support

**Try it FREE for 30 days**

**Starts as low as \$19.99/user/month after trial offer**

Receive 24/7/365 assistance with installations, network setup, regular tune-ups and maintenance and other tech support without the costs of staffing an entire IT department.
