

# CenturyLink® Managed Office

Create more time for your small business, in no time at all.

Running a business is all about your time. The more time you can put in, the more your business benefits. But to make that happen, you need to get something off your plate.

CenturyLink Managed Office can help you do just that. Starting now you don't have to worry about troubleshooting technical problems, keeping track of hardware and software updates, or the hassle of having multiple service providers. We can take care of everything for you, end-to-end, so you have one less thing on your plate. And that's, a significant business benefit.

## *CenturyLink Managed Office makes it easy for you to:*

### **Reduce costs**

Pay a monthly fee per seat plus the cost of High-Speed Internet, with no large initial costs or unexpected expenses.

### **Get services on-demand**

Access cloud-based email and other advanced business applications as needed.

### **Communicate securely**

Our privately owned network provides a secure environment for data and voice communications, as well as data backup and recovery services.

### **Eliminate inefficiencies**

With fewer day-to-day management tasks, your employees have more time for productive business activities.

### **Scale up for the future**

Add users and scale up to 100M/12M as your business needs grow.

### **Get the support you need**

We plan and lead your migrations and deployments, provide employee training, and connect everyone to a 24/7 help desk.

**Start the conversation today.** To learn more about **CenturyLink Managed Office**, contact your CenturyLink representative.
