

Verizon Wireless for your business.

Take your business more places.

Business is about more than contacts – it's about making connections. And with Verizon Wireless service through CenturyLink, you'll always stay connected. So if you're on the go and need wireless service that's as fast as it is reliable, welcome to Verizon – with more 4G LTE coverage than all other networks combined.

Verizon Wireless through CenturyLink

- Verizon 4G LTE, fastest 4G network in America
- Flexible data plans to meet your needs
- 95+ million retail connections nationwide
- Coverage available in more than 200 countries worldwide

Share Everything on Verizon Wireless.

Welcome to Verizon's Share EverythingSM

The Share EverythingSM Plan lets your family share a pool of data across 10 devices, with Unlimited Talk and Text. Only from Verizon.

How Does It Work?

It's easy, first choose your devices. Then think about how much data you'll need. Unlimited Talk and Text are already included. And you can connect up to 10 devices to share your minutes, messages and data.

One Plan. Many Devices.

Sharing is a good thing. In one plan, you can connect a smartphone, data device (including Verizon JetpackTM 4G LTE Mobile Hotspot, USB modem or tablet). So whatever you have, Share Everything will help you talk, text and share more.

Data? How Much Do You Need?

Streaming movies, downloading music and playing games all use up more data than emailing and Web browsing. (Ask about the tools we have to help you pick the plan that's right for you – like our Data Calculator, which recommends a plan based on how you use your devices.) We have data plans starting at 1 GB to 10 GB per month and beyond. And remember, you can always connect to Wi-Fi without using any of your data allowance.
