Why CenturyLink Cloud Solutions?

• Enjoy powerful capabilities without the hefty price tags.

• Work from virtually anywhere by accessing your services online, at any time.

• Make changes easily and cost-effectively, with the ability to get new staff up and running quickly.

• Forget the hassles of hardware, software and license updates—we manage everything for you!

• **McAfee Endpoint Protection** – Stay protected from hacker threats when using your desktop or mobile device with our firewall, filtering and blocking service.

• **McAfee Email Protection & Continuity** – Blocks more than 99% of spam, viruses, worms, fraudulent messages and other malware by automatically screening your emails.

• **Web Browsing Protection** – Guards users from visiting risky pages, based on known trouble sites, that put you at risk of scams and virus downloads.

• **McAfee Email Archiving** – Helps ensure that you're covered in the case of compliance audits, lawsuits and lost emails with remote email and attachment storage.

• **Secure Online Backup** – Don't worry about losing your business-critical files again with our secure backup that protects your files from emergencies, outages and loss.
