BUSINESS

Put advanced technologies
to work for your small business.

It's easier than you think
with Qwest Core Connect.

When your expanding business is outgrowing its current technology, Qwest® Core Connect® helps you keep the momentum going. You get advanced phone, Internet, e-mail and Web site technologies. Core Connect offers a complete solution with the convenience of a single provider.

Qwest® BUSINESS

Core Connect 2 includes:

✓ Save when you call between subscribers on the Qwest IP network at no additional charge

✓ Scalability, to let you add bandwidth as your business grows

✓ 2 Microsoft® Exchange e-mail addresses and up to 20 outgoing fax over e-mail pages per month

✓ Network equipment rental

✓ Scalable, starting with 6 lines

✓ 100% network availability goal*

Upgrade your existing phone system without having to buy new equipment, and get a dedicated Internet connection for consistent connection speeds.

If you'd like to avoid having to buy all new equipment: Included equipment allows you to connect most existing phone systems at no additional cost. This is an easy way to transition from traditional phone and Internet connections to a business-class, dedicated connection.

If you need a faster, more reliable Internet: Maximize efficiency with a system that automatically allocates bandwidth where and when it's needed.

If you'd like to save more on calling: Enjoy unlimited local service using Voice over Internet Protocol (VoIP), as well as unlimited calling between your business locations on Core Connect and to other Qwest Core Connect and Integrated Access customers.

If you want it in writing: With Core Connect 2, you get our 100% network availability goal.*
